BACKGROUND

The NSLOGO lettering font

This is a free font and cannot be sold or be part of a commercial product.

This font was created using references from the Internet. It is based on various sources related to Google searches.

This set lettering tries to capture the Norfolk Southern logo's and lettering.

There are 2 numbering styles used post merger so you will see Southern and Norfolk Western numbering are included

Disclaimer

This ttf font is a best effort attempt at recreating a vector based image suite related to Norfolk Southern. Some variances exist in real life and therefore there may be some discrepancies between what is supplied here and actual prototype references.

Font Usage

Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like `C:\TEMP`. (I'll assume that you used `c:\temp` from here on...)

You can often just double-click the TTF file and the system will provide an install option.

Now you can install the font from the Windows **CONTROL PANEL**.

Your system may be different, but for Windows 7, you would select **START** → **Settings** → **Control Panel** → **FONTS** → **FILE** [pull down] → **INSTALL NEW FONT**

From here you would select your new file `C:\temp\NSLOGO`

That's it, the font is installed.

As with all other TTF fonts on your system, the NSLOGO file enclosed within the ZIP file belongs in the FONTS folder of your windows operating system. This is the only way this file would be useful.

Letter Set

Logo and Details

This font does not contain a full letterset. For Lettering, use a Helvetica style font or use SouthernD font available at RailSimStuff.

See table below for assignments.

Numbers

0 1 2 3 4 5 6 7 8 9

Shifted Numbers

0123456789
